### Thoughts For Reflection:

"The beginning of another year means the end of a year that has fulfilled itself and passed on. It means that some things are finished, rounded out, completed forever. It means that for some of us certain changes have taken place so profound in nature that we can never be what we were before. The New Year means a fresh start, a second wind, another chance, a kind of reprieve, a divine act of grace bestowed upon the children of humanity."
